(c) 2010 Jenny Brandis

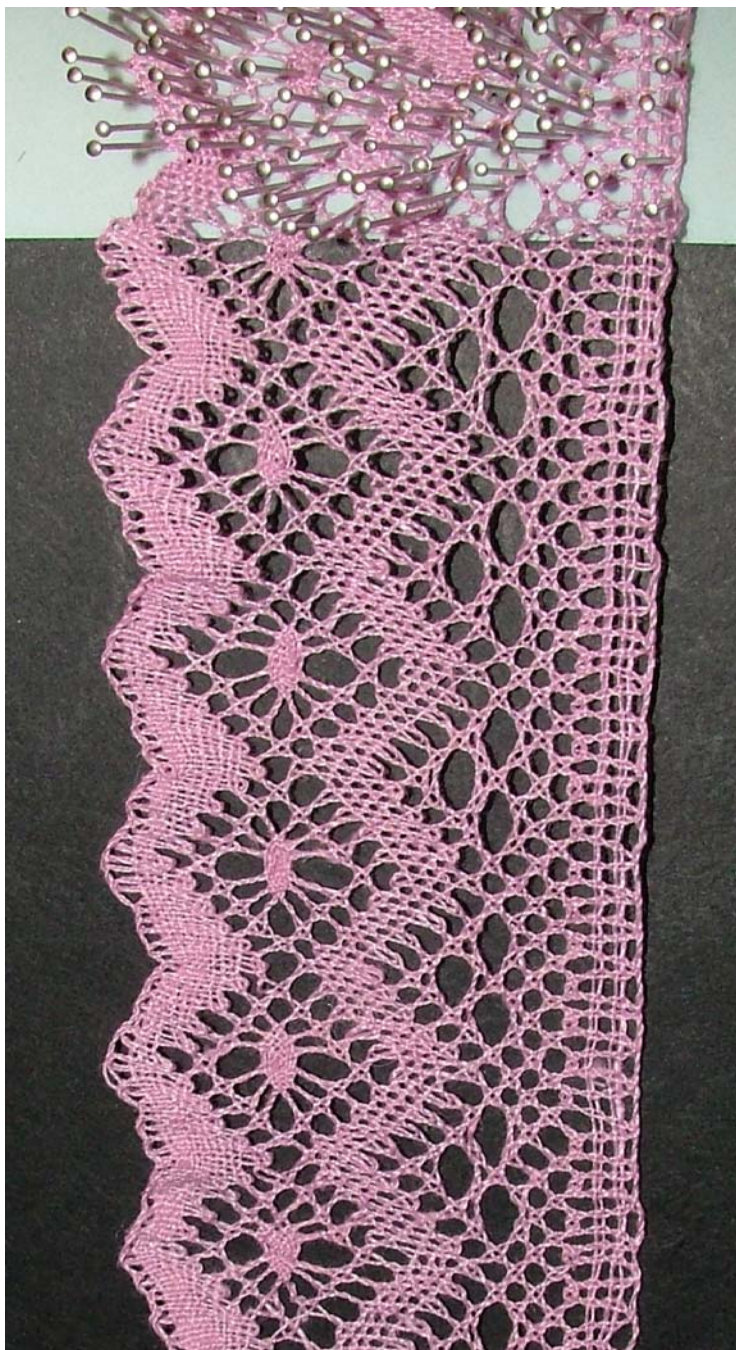

This pattern is named after my younger sister.

This sample is done in a dusty pink linen thread from Bockens Knyppegarn in 60/2

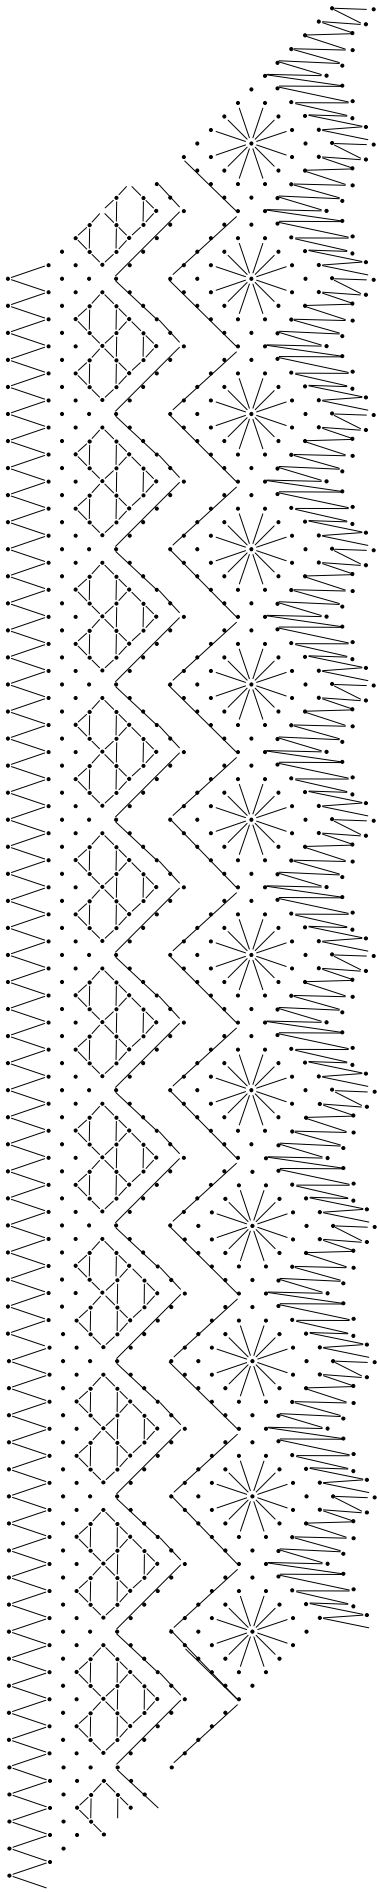

The pricking is on a scale of 10 to the inch diagonal. I ended up using 27 pairs rather than the 28 pairs I wrote on the pattern. I took a pair out of the fan to prevent it puckering.

If you look closely at the lace under the pins, you will see I have changed the fan to half stitch and the trail is now cloth stitch.
